

The center for a more comfortable rehab stay

Braintree Rehabilitation Hospital is pleased to announce the opening of our newly renovated rehabilitation unit, 3 North. This unit is part of a multi-phase plan to upgrade our patient care environment. The rehabilitation unit renovation follows the main entry renovation and the addition of a therapeutic patio. Featuring thirty-eight beds, 3 North offers dialysis, telemetry service, and Omnicell medication dispensing for enhanced patient safety.

Newly Renovated Rehabilitation Unit

IMPROVED PATIENT ROOM AMENITIES:

- Personal flat screen televisions with satellite network
- Complimentary WiFi
- Climate control in each room
- New Stryker Secure II hospital beds with:
 - Built-in weight scales
 - A 3-tiered adjustable bed alarm system networked to the nursing call system
 - Mattresses offering superior pressure relief and ulcer prevention
 - Bed extenders for tall patients
- A new nurse call system linked with bed safety features for improved nurse notification

SPACE IMPROVEMENTS INCLUDE:

- Large and open carpeted hallways which absorb sound, are easy to navigate and create a quieter, more peaceful unit atmosphere
- A large family common room with a flat screen TV and flexible furnishings plan, allowing patients and families to organize seating to meet their needs
- A new nurses' station offering improved lighting and design for efficient organization and maximum space
